Continuation of Substance of Interview including description of the general nature of what was discussed:
Authorization for this examiner's amendment was given in a telephone interview with Robert Smith on 05/19/2006. In applicants amended claims filed 04/11/2006, in claim 7 the recitation of "means for mounting" no longer has antecedent basis, since that text was cancelled from claim 2. Further, the allowable subject matter "a hairpin strip..." may not be included in the claim without an indication as to it's relationship with the invention. Adding the limitation that the knife is mounted with a screw renders unclear the operation of the hairpin strip. In a telephone conversation on 05/19/2006 Examiner and Applicant came to an understanding regarding the claim, that the two ways of operably attaching the knife (hairpin strip and screw) were not mutually exclusive and they could be used interchangeably by a user of the tool. .
